

Take action as a corporation.

The H2Global Foundation welcomes all interested companies and institutions eager to support the transition to low-emission fuels. Join us in this pivotal journey towards a sustainable future.

The [H2Global Foundation](#) is at the forefront of the clean energy transition, leveraging market-based models such as the H2Global mechanism to drive progress. By joining as a donor, you become an integral part of our mission. Donors are invited to contribute to the H2Global Foundation's research activities, ensuring that it incorporates real-life experiences and lessons learned to best inform the public, including policymakers and international organizations active in this space. All donors become members of the Donors' Conference, a vital forum for exchanging ideas and strategies on how best to design and promote the market creation for clean hydrogen and other clean energy sources.

Minimum endowment amount

For first-time endowers, a minimum endowment is required of EUR 20,000 for small and medium-sized enterprises (SMEs) and EUR 100,000 for large corporations, as per § 5 para. 4 of the [foundation's statutes](#).

Note: These minimum endowment requirements are one-time commitments.

Donation options

Donors can contribute through a lump sum (one-time donation), a stretched endowment (recurring contribution spread max. over 10 years), or a mixed approach that combines both methods.

Note: Donor status is granted upon approval by the Board of Trustees and receipt of the (first) endowment, as per § 5 para. 5 of the [foundation's statutes](#).

Voting rights and role in governance

- Every EUR 10,000 paid in full grants the donor one vote in the Donors' Conference (e.g., a contribution of EUR 310,000 grants 31 votes).
- Donors use their voting rights to elect members of the Board of Trustees as specified in the [foundation's statutes](#) (§ 12 paras. 2, 4, 5).
- Donors also vote on key strategic issues proposed by the Board of Trustees.
- Any legal entity holding at least 10 votes may propose candidates for the Board of Trustees within their designated division.

Divisions

Each donor aligns themselves with one of the following five divisions, which represent different sectors within the clean energy ecosystem:

- a) plant construction
- b) production
- c) transport and logistics
- d) consumption and users
- e) finance and insurance

Refer to § 14 para. 5 of the [foundation's statutes](#) for more details.
